

BioTime to Present at the Jefferies 2014 Global Healthcare Conference

June 2, 2014

ALAMEDA, Calif.--(BUSINESS WIRE)--Jun. 2, 2014-- BioTime, Inc. (NYSE MKT: BTX), a biotechnology company that develops and markets products in the field of regenerative medicine, today announced that Chief Executive Officer Michael D. West, PhD will present at the [Jefferies 2014 Global Healthcare Conference](#) taking place June 2-5 in New York City. Dr. West will provide a corporate update in his presentation on Thursday, June 5, 2014, 9:00 AM EDT, at the Grand Hyatt New York.

The presentation will include updates on clinical studies currently underway and on other products that are expected to enter or re-enter clinical trials soon. A live webcast of the presentation will be accessible at <http://wsw.com/webcast/jeff82/btx>.

The four day annual investor conference hosted by Jefferies will highlight over 300 leading public and private healthcare companies across the biopharmaceuticals, life sciences, healthcare services, healthcare IT and medical technology sectors.

Investors interested in scheduling a meeting with Dr. West during this conference should contact Judith Segall at jsegall@biotimemail.com.

About BioTime

BioTime is a biotechnology company engaged in research and product development in the field of regenerative medicine. Regenerative medicine refers to therapies based on stem cell technology that are designed to rebuild cell and tissue function lost due to degenerative disease or injury. BioTime's focus is on pluripotent stem cell technology based on human embryonic stem ("hES") cells and induced pluripotent stem ("iPS") cells. hES and iPS cells provide a means of manufacturing every cell type in the human body and therefore show considerable promise for the development of a number of new therapeutic products. BioTime's therapeutic and research products include a wide array of proprietary [PureStem](#)[®] progenitors, [HyStem](#)[®] hydrogels, culture media, and differentiation kits. BioTime is developing [Renevia](#)[™] ([aHyStem](#)[®] product) as a biocompatible, implantable hyaluronan and collagen-based matrix for cell delivery in human clinical applications, and is planning to initiate a pivotal clinical trial around [Renevia](#)[™], in 2014. In addition, BioTime has developed [Hextend](#)[®], a blood plasma volume expander for use in surgery, emergency trauma treatment and other applications. [Hextend](#)[®] is manufactured and distributed in the U.S. by Hospira, Inc. and in South Korea by CJ HealthCare Corporation, under exclusive licensing agreements.

BioTime is also developing stem cell and other products for research, therapeutic, and diagnostic use through its subsidiaries:

- [Asterias Biotherapeutics](#), Inc. is a new subsidiary which has acquired the stem cell assets of Geron Corporation, including patents and other intellectual property, biological materials, reagents and equipment for the development of new therapeutic products for regenerative medicine.
- [BioTime Asia](#), Ltd., a Hong Kong company, may offer and sell products for research use for BioTime's ESI BIO Division.
- [Cell Cure Neurosciences](#) Ltd. is an Israel-based biotechnology company focused on developing stem cell-based therapies for retinal and neurological disorders, including the development of retinal pigment epithelial cells for the treatment of macular degeneration, and treatments for multiple sclerosis.
- [ESI BIO](#) is the research and product marketing division of BioTime, providing stem cell researchers with products and technologies to enable them to translate their work into the clinic, including [PureStem](#)[®] progenitors and [HyStem](#)[®] hydrogels.
- [LifeMap Sciences](#), Inc. markets, sells, and distributes [GeneCards](#)[®], the leading human gene database, as part of an integrated database suite that also includes the [LifeMap Discovery](#)[®] database of embryonic development, stem cell research, and regenerative medicine, and [MalaCards](#), the human disease database.
- [LifeMap Solutions](#), Inc. is a subsidiary of LifeMap Sciences focused on developing mobile health (mHealth) products.
- [OncoCyte](#) Corporation is developing products and technologies to diagnose and treat cancer, including [PanC-Dx](#)[™], with three clinical trials currently underway.
- [OrthoCyte](#) Corporation is developing therapies to treat orthopedic disorders, diseases and injuries.
- [ReCyte Therapeutics](#), Inc. is developing therapies to treat a variety of cardiovascular and related ischemic disorders, as well as products for research using cell reprogramming technology.

BioTime stock is traded on the NYSE Market exchange, ticker BTX. For more information, please visit www.biotimeinc.com or connect with the company on [Twitter](#), [LinkedIn](#), [Facebook](#), [YouTube](#), and [Google+](#).

FORWARD-LOOKING STATEMENTS

Statements pertaining to future financial and/or operating results, future growth in research, technology, clinical development, and potential opportunities for BioTime and its subsidiaries, along with other statements about the future expectations, beliefs, goals, plans, or prospects expressed by management constitute forward-looking statements. Any statements that are not historical fact (including, but not limited to statements that contain words such as "will," "believes," "plans," "anticipates," "expects," "estimates") should also be considered to be forward-looking statements. Forward-looking statements involve risks and uncertainties, including, without limitation, risks inherent in the development and/or commercialization of potential

products, uncertainty in the results of clinical trials or regulatory approvals, need and ability to obtain future capital, and maintenance of intellectual property rights. Actual results may differ materially from the results anticipated in these forward-looking statements and as such should be evaluated together with the many uncertainties that affect the business of BioTime and its subsidiaries, particularly those mentioned in the cautionary statements found in BioTime's Securities and Exchange Commission filings. BioTime disclaims any intent or obligation to update these forward-looking statements.
