

BioTime, Inc. to Announce Fourth Quarter and Fiscal 2016 Results on March 16, 2017

February 23, 2017

ALAMEDA, Calif.--(BUSINESS WIRE)--Feb. 23, 2017-- BioTime, Inc. (NYSE MKT:BTX), a clinical-stage biotechnology company developing and commercializing products addressing degenerative diseases, today announced that it will release fourth quarter and fiscal 2016 financial and operating results on Thursday, March 16, 2017, after the close of the U.S. financial markets. The Company will host a conference call and webcast on Thursday, March 16, 2017, at 4:30 p.m. Eastern Time / 1:30 p.m. Pacific Time to discuss the results and recent corporate developments.

The conference call dial-in number in the U.S./Canada is 1-877-407-0784. For international participants outside the U.S./Canada, the dial-in number is 1-201-689-8560. For all callers, please refer to the "BioTime, Inc. Conference Call." The live webcast can be accessed on the "Events & Presentations" page of the "Investors & Media" section on the company's website at <http://www.biotimeinc.com/>.

A replay of the conference call will be available for seven business days beginning about two hours after the conclusion of the live call, by calling toll-free from U.S./Canada: 1-844-512-2921; international callers dial 1-412-317-6671. Use the Conference ID 13656362. Additionally, the archived webcast will be available on the "Events & Presentations" page of the "Investors & Media" section on the company's website at <http://www.biotimeinc.com/>.

About BioTime

BioTime, Inc. is a clinical-stage biotechnology company focused on developing and commercializing novel therapies developed from what the company believes to be the world's premier collection of pluripotent cell assets. The foundation of BioTime's core therapeutic technology platform is pluripotent cells that are capable of becoming any of the cell types in the human body. Pluripotent cells have potential application in many areas of medicine with large unmet patient needs, including various age-related degenerative diseases and degenerative conditions for which there presently are no cures. Unlike pharmaceuticals that require a molecular target, therapeutic strategies based on the use of pluripotent cells are generally aimed at regenerating or replacing affected cells and tissues, and therefore may have broader applicability than pharmaceutical products.

In addition to the development of therapeutics, BioTime's research and other activities have resulted, over time, in the creation of other subsidiaries that address other non-therapeutic market opportunities such as cancer diagnostics, drug development and cell research products, and mobile health software applications.

BioTime common stock is traded on the NYSE MKT and TASE under the symbol BTX. For more information, please visit www.biotimeinc.com or connect with the company on [Twitter](#), [LinkedIn](#), [Facebook](#), [YouTube](#), and [Google+](#).
