

## AgeX Therapeutics to Present at Biotech Showcase 2019

January 2, 2019

ALAMEDA, Calif.--(BUSINESS WIRE)--Jan. 2, 2019-- [AgeX Therapeutics](#), Inc. (NYSE American: AGE), a biotechnology company focused on developing and commercializing innovative therapeutics for human aging, today announced that it will present at [Biotech Showcase](#), to be held January 7-9, 2019 in San Francisco, California.

AgeX Founder and CEO Michael D. West, Ph.D., will be speaking at the conference as follows:

**Date:** Wednesday, January 9

**Time:** 9:00AM PST

**Track:** Yosemite-A (Ballroom Level)

**Venue:** Hilton San Francisco Union Square, 333 O'Farrell Street, San Francisco, Calif.

According to the event organizers, Biotech Showcase features more than 3,500 decision makers from 2,100 life sciences companies in a variety of plenary sessions, fireside chats, and panels. Additional information and registration may be found [here](#).

To schedule a meeting with Dr. West during Biotech Showcase, please write to [bill@gothamcomm.com](mailto:bill@gothamcomm.com).

A copy of Dr. West's presentation will be available on the AgeX [website](#).

### About AgeX Therapeutics

AgeX Therapeutics, Inc. (NYSE American: AGE) is focused on developing and commercializing innovative therapeutics for human aging. Its PureStem® and UniverCyte™ manufacturing and immunotolerance technologies are designed to work together to generate highly defined universal, allogeneic, off-the-shelf pluripotent stem cell-derived young cells of any type for application in a whole host of diseases with a high unmet medical need. AgeX has two preclinical cell therapy programs: AGEX-VASC1 (vascular progenitor cells) for tissue ischemia and AGEX-BAT1 (brown fat cells) for type II diabetes. AgeX's revolutionary longevity platform named induced Tissue Regeneration (iTR™) aims to unlock cellular immortality and regenerative capacity to reverse age-related changes within tissues. AGEX-iTR1547 is an iTR-based formulation in preclinical development. HyStem® is AgeX's delivery technology to stably engraft PureStem cell therapies and slowly release iTR molecules in the body. AgeX is aggressively developing its core product pipeline toward the clinic to extend human healthspan and seeking opportunities to form licensing and partnership agreements around its broad IP estate and proprietary technology platforms for non-core clinical applications.
