### ***Cowen and Company 39th Annual Health Care Conference***

Date: Wednesday, March 13  
Time: 10:00am Eastern Time  
Location: Boston Marriott Copley Place  
Webcast: <http://wsj.com/webcast/cowen52/ocx/>

### **About OncoCyte Corporation**

OncoCyte is focused on the development and commercialization of novel, non-invasive blood ("liquid biopsy") diagnostic tests for the early detection of cancer. Early detection of cancer can improve health outcomes, reduce the cost of care, and improve patients' quality of life. Liquid biopsy diagnostic tests like those OncoCyte is developing may reduce the need for costlier and riskier diagnostic procedures such as invasive biopsy procedures. OncoCyte's is focusing its efforts on developing DetermaVu™ as a non-invasive confirmatory diagnostic test for lung cancer. DetermaVu™ is being developed using proprietary sets of genetic and protein molecular markers to detect the presence of lung cancer. OncoCyte also plans to conduct research to identify additional molecular markers, acquire or license markers and related technology, and develop tests for additional types of cancer based on those markers.
