BIOTIME, INC.  
(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

1. GENERAL AND DEVELOPMENT STAGE ENTERPRISE

General - BioTime, Inc. (the Company) was organized November 30, 1990 as a California corporation. The Company is a biomedical organization, currently in the development stage, which is engaged in research and development of synthetic plasma expanders, blood substitute solutions, and organ preservation solutions, for use in surgery, trauma care, organ transplant procedures, and other areas of medicine.

The interim condensed financial statements presented have been prepared by BioTime, Inc. (the Company) without audit and, in the opinion of management, reflect all adjustments necessary (consisting only of normal recurring adjustments) to present fairly the financial position, results of operations and cash flows at December 31, 1996 and for all periods presented. The results of operations for any interim period are not necessarily indicative of results for a full year.

The Balance Sheet as of June 30, 1996, has been derived from the financial statements that have been audited by the Company's independent public accountants. The condensed financial statements and notes are presented as permitted by the Securities and Exchange Commission and do not contain certain information included in the annual financial statements and notes of the Company. It is suggested that the accompanying condensed financial statements be read in conjunction with the audited financial statements and the notes thereto contained in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 1996, filed with the Securities and Exchange Commission.

The preparation of the Company's condensed financial statements in conformity with generally accepted accounting principles necessarily requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities in the condensed balance sheet dates and the reported amounts of income and expenses for the periods presented.

Development Stage Enterprise - Since inception, the Company has been engaged in research and development activities in connection with the development of synthetic plasma expanders, blood substitute solutions and organ preservation products. The Company has not had any significant operating revenues and has incurred operating losses of \$9,537,314 from inception to December 31, 1996. The successful completion of the Company's product development program and, ultimately, achieving profitable operations is dependent upon future events including maintaining adequate capital to finance its future development activities, obtaining

regulatory approvals for the products it develops and achieving a level of sales adequate to support the Company's cost structure.

The Company successfully completed two public offerings of its common shares and, at December 31, 1996, had remaining cash and cash equivalents of over \$1,800,000. Management believes that additional funds may be required for the successful completion of its product development activities.

## 2. SHAREHOLDERS' EQUITY

The Board of Directors of the Company adopted the 1992 Stock Option Plan (the "Plan") in September 1992, which was approved by the shareholders at the 1992 Annual Meeting of Shareholders, on December 1, 1992. Under the Plan, as amended, the Company has reserved 400,000 Common Shares for issuance under options granted to eligible persons. No options may be granted under the Plan more than ten years after the date the Plan was adopted by the Board of Directors, and no options granted under the Plan may be exercised after the expiration of ten years from the date of grant.

At December 31, 1996, options for the purchase of 219,000 shares under the Plan were held by employees, officers, directors, members of the scientific advisory board and certain consultants. Such options are exercisable at prices ranging from \$1.99 to \$18.81 beginning from one to two years after the grant date and expire after five to ten years from the grant date. Certain options require the achievement of performance criteria. During the quarter ended December 31, 1996, options to purchase a total of 10,000 common shares were issued to consultants at an average option price of \$18.81 per share. The estimated fair value of the services totaled \$20,000 and was recognized in the period. At December 31, 1996, 209,000 options were exercisable at prices ranging from \$1.99 to \$18.81. Options for 90,000 common shares have been exercised as of December 31, 1996.

In September 1996, the Company entered into an agreement with an individual to act as an advisor to the Company. In exchange for services, as defined, to be rendered by the advisor through September 1999, the Company issued warrants, with five year terms, to purchase 40,000 common shares at a price of \$18.75 per share. Warrants for 25,000 common shares vested and became exercisable and transferable when issued; warrants for the remaining 15,000 common shares vest ratably through September 1997 and become exercisable and transferable as vesting occurs. The estimated value of the services to be performed is \$60,000 and that amount has been capitalized and is being amortized over the term of the agreement.

During September 1995, the Company entered into an agreement with a firm to act as its financial advisor. In exchange for financial consulting services associated in part with a plan to secure additional capital, the Company issued to the financial advisor warrants to purchase 100,000 common shares at a price of \$6 per share, and the Company agreed to

issue additional warrants to purchase up to an additional 200,000 common shares at a price equal to the greater of (a) 150% of the average market price of the common shares during the three months prior to grant or (b) \$6 per share. The additional warrants were to be issued in equal quarterly installments over a two year period, beginning October 15, 1995. The Company may terminate the financial advisory agreement on 30 days notice, in which case the next warrant issuance would be accelerated to the date on which notice of termination is given, but no additional warrants would be issued. As of December 31,

1996, the total number of warrants to purchase Common Shares issued was 225,000; 150,000 of which are exercisable at a price of \$6 per share, 25,000 of which are exercisable at a price of \$7.32 per share, 25,000 of which are exercisable at a price of \$30.04 per share, and 25,000 of which are exercisable at \$29.33 per share. As of January 15, 1997, warrants to purchase an additional 25,000 shares were issued, which are exercisable at a price of \$32.65 per share.

During the quarter ended December 31, 1996, the Company recognized \$50,136 in amortization expense for capitalized service costs related to consulting agreements.

3. SUBSEQUENT EVENTS

On February 4, 1997, the Company completed a subscription rights offering, raising \$5,662,180 through the sale of 283,109 common shares. In addition, from December 26, 1996 through February 10, 1997, the Company received \$772,271 through the exercise of certain underwriters' warrants.
